For Immediate Release

International Science Fair: Lillian Petersen Takes First in Category

Los Alamos High School sophomore Lillian Petersen took the top award in her category at the International Science and Engineering Fair in Pittsburgh, PA, on Friday, May 18.

Petersen's project, "Predicting Food Shortages in Africa from Satellite Imagery," won her the top placement in the Earth and Environmental Sciences category.

Including Peterson, seven LAHS students traveled to Pittsburgh to compete in the International Science Fair on May 13-18; the final results from the contest are pending.
