eat. learn. live.

August is national Sandwich Month!

While grilled cheese may be one sandwich sure to be on the menu this month, we welcome your thoughts on what you would like to see this year. You can text our Food Services Director at 409-877-3911. Tell her your idea and what site you eat lunch at daily.

School Café

One goal with our food service program is to make payments an easy process for families. You can visit www.schoolcafe.com to set up an account. Applications available for families that need a little extra help.

Nutrislice

When time is tight and you have misplaced a menu, just install the free app from Nutrislice to find out what food is on tap for today!

Los Alamos School District

Youth Summer Food Program

This summer, Chartwells hosted the first ever food program, for our community. Four employees provided up to 300 youth per day with a free, fast and nutritious lunch and snack. The meals were served daily at Aspen Elementary with direct service provided to summer school and YMCA students at Mountain Elementary.

Checks and Balances

Our staff would like to remind you that any balance on your account will rollover to this school year and even to a new school. Also, any debts that remained at the end of the year also still stand.

Checks can be made to Chartwells any time and your account will be instantly updated at each site. If the only time you remember is during Open House, our staff members are happy to assist.

Coffee Anyone?

Chartwells hopes to jumpstart your morning and help you avoid long lines elsewhere. LAHS students will see an improved coffee bar this year. The high school will include iced and hot flavored coffees and teas.
